I did not vote to dismiss Mr. Whitaker when reported for misconduct in the Chapel to be lectured on for disorderly conduct in his recitation room because I thought him already sufficiently punished for his offense by the study which he received from different members of the faculty who were called before him to admonish him. Mr. Whitaker denied warmly the justice of the representation given by Mr. Kenigsberger, stating that he had exaggerated his case which I believed to be true at least very considerably reported by Mr. Kenigsberger had been an error one. It did not appear from the deferred that Mr. Whitaker had any deliberate intention either to disturb the order of the recitation.
