part of the students rushed to him and layed him down on the "rostrum and began to help him.

The doctor was sent for immediately, but within a few minutes he was no more. I never witnessed a more sad occurrence in all my life, a letter was procured and we carried him down to his house.

his family was very much surprised for he had just left there a few minutes before. Both societies met and then the whole body of students and passed resolutions

ing his death. The body was dressed and Dr. H.burn (who you heard preach once) at Old Joe preached his funeral on Friday. Very good sermon were best I ever heard. It will be published in a few days. After the funeral was over, the students formed a procession in front of the coffin and marched to the grave.
