In the meanwhile - let some of the news
of the old town, and all field - be read to try
experiment in farming, tillage, seeds to
under the direction of the gardens & without
some joy in the season. When the most
remarkable fruits, vegetables & animals
shall be exhibited in the village.

Building already made.

President Park will, I have no doubt
and from the Patent Office in Washington
the more valuable seeds, which are
omniously distributed there.

Thus, an additional sum of publication
interest, will be made to the other subscribers
of your village - and the surrounding country
be enriched also. Some surprise and
be connected with the latter an equal in such
similar things.

I hope to hear from you that I am
pleased to learn that his health is
sustained.
