Students should be required to conform to the College rule in this particular.
It was unanimously agreed at that time after a full discussion of the
subject that both faculty and student should conform to the College rule, in relation to
chapel service, and a resolution to that effect was entered in the minute.

Since that period I have heard of
no complaint on the score of Chapel
service, until the last meeting of the
board held at Chapel Hill, when the
present Memorial from the Episcopal
Convention was handed in, and referred
to the Annual Meeting.

It seems that I remember correctly for an exemption from attendance on divine
service at the College Chapel, on Sunday of all students who signify their desire
in writing, if of age, to be thus exempt.
for the purposes of attending religious
service elsewhere — and also of those
under age whose parents or guardians
signify the same thing in writing for
them.

I consented the ordinance requiring
attendance on chapel worship, an excellent one. It has operated advan-
tageously to the institution. I learn
for thirty, and as a police regulation
simply is, almost indispensable, to its
government and prosperity.
